TODAY'S REGIONAL FORECAST

REGIONAL SUMMARY

The weather for the Gallup region will remain fair with plenty of sunshine. High temperatures will see a warming trend over the next few days and top off at slightly above normal by later in the week. A little cooler air looks to move in over the weekend and into next week. All in all, pleasant weather can be expected for the next several days.

WEATHER HISTORY

In 1998, an intense thunderstorm formed over northwest Socorro County near the Alamo Navajo Reservation and moved northeast into southwest Valencia County for the second day in a row. A small section of the city was pounded by softball size hail and wind gusts of 60 to 70 mph.
