Regional Outlook

High pressure will result in a prolonged period of dry weather through the week and into the weekend. Temperatures will remain above average today, but cooler air moves in Wednesday and Thursday. Areas of frost appear likely Wednesday night. Temperatures moderate late week.

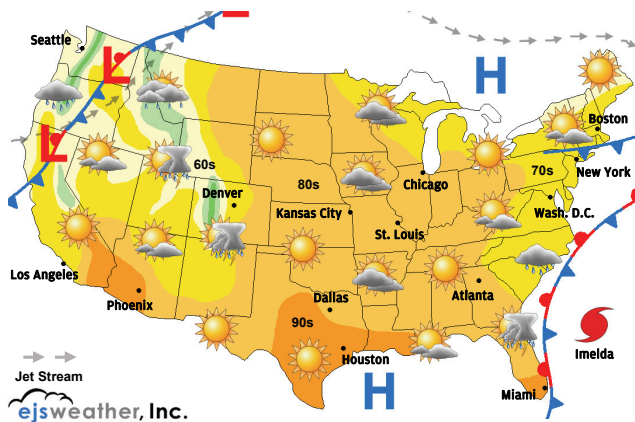

Shown is this afternoon's weather. Temperatures are today's highs and tonight's lows.

Weather Event on this Day

1986: In Washington, DC the total precipitation for the month of September was only 0.60 inches. That was the fourth driest of all time until 2000.
